

C O P Y

RESOLUTION 71-17

WHEREAS THERE are now two (2) cluster type housing projects consisting of large families and with the addition of more homes on these sites there will be overcrowding and we fear this will cause congestion, vandalism, and delinquency,

WHEREAS there are a number of families with leases and assignments without homes on Oneida Tribal lands who are in urgent need and want a home on individual or scattered sites.

WHEREAS homes have been built on individual or scattered sites on other Indian Reservations throughout the United States.

THEREFORE WE THE UNDERSIGN are requesting that the new housing already approved through PHA be built on individual or scattered sites as it is difficult to get financing from other sources.
