Quarterly News of  
the Tribal Action  
Plan  
December 2021

The TAP staff works with the Tribal Coordinating Committee (TCC) which is comprised of various departments throughout the organization to update the goals and objectives of the Tribal Action Plan. We have monthly meetings with the subcommittees to work on objectives to achieve these goals. The TAP staff is here to create awareness for the Oneida Community on the drug epidemic and to make sure that we are all working together towards the same goal.

## Brown County Drug Task Force Presents Current Drug Trends

On November 8, 2021 TAP collaborated with the Oneida Recreation with a Drug Trends presentation that was presented by Jordan Hooper, Brown County Drug Task Force. 20 youth were in attendance.

Wishes you a Merry Christmas and a Happy New Year

If you suspect an Opioid Overdose

- Shake and wake
- Call 911
- Give naloxone
- Rescue breathing/recovery position
- Care for the person

TAP Specialist, Leslie Doxtater and Jackie Ninham, Opioid Prevention Coordinator had a presentation on Narcan training with the staff at the new Safe Shelter on November 12th.

Cecelia LaPoint, Founder & Executive Director of the Native Justice Coalition provided a cultural approach to harm reduction to encourage a safe recovery journey. November 1st, 20 community members were in attendance for this virtual presentation.

## Drug Categories | International Association of Chiefs of Police (theiacp.org)

### Central Nervous System (CNS) Depressants

CNS depressants slow down the operations of the brain and the body. Examples of CNS depressants include alcohol, barbiturates, anti-anxiety tranquilizers (e.g., Valium, Librium, Xanax, Prozac, and Thorazine), GHB (gamma hydroxybutyrate), Rohypnol, and many other anti-depressants (e.g., Zoloft, Paxil).

### CNS Stimulants

CNS stimulants accelerate the heart rate and elevate the blood pressure and "speed-up," or over-stimulate, the body. Examples of CNS stimulants include cocaine, "crack" cocaine, amphetamines, and methamphetamine ("crank").

### Hallucinogens

Hallucinogens cause the user to perceive things differently than they actually are. Examples include LSD, peyote, psilocybin and MDMA (Ecstasy).

### Dissociative Anesthetics

Dissociative anesthetics include drugs that inhibit pain by cutting off or dissociating the brain's perception of the pain. PCP, its analogs, and Dextromethorphan are examples of dissociative anesthetics.

### Narcotic Analgesics

Narcotic analgesics relieve pain, induce euphoria, and create mood changes in the user. Examples of narcotic analgesics include opium, codeine, heroin, Demerol, Darvon, morphine, methadone, Vicodin, and oxycontin.

### Inhalants

Inhalants include a wide variety of breathable substances that produce mind-altering results and effects. Examples of inhalants include Toluene, plastic cement, paint, gasoline, paint thinners, hair sprays, and various anesthetic gases.

### Cannabis

Cannabis is the scientific name for marijuana. The active ingredient in cannabis is delta-9 tetrahydrocannabinol, or THC. This category includes cannabinoids and synthetics like Dronabinol.

111 Drug related arrests April—September 2021 —Oneida Police Department (OPD)

OPD collects on average 60-70 per month

#### Tribal Action Plan Goals

Goal 1: Raise awareness of the drug and alcohol epidemic in our community

Goal 2: Increase access and bring awareness of the services relevant to alcohol and drugs

Goal 3: Develop and establish a comprehensive youth development, prevention, and intervention strategy

Goal 4: Create and Implement a comprehensive justice system that includes a Wellness Court and a rehabilitative corrections system

Goal 5: Create healing spaces that accommodate the community's need to include a Recovery Center, Transitional Sober Living and Yuyunhiyostakhwahake wellness Campus in our community

#### TAP Staff

Renita Hernandez	Leslie Doxtater	Lori Elm
TAP Manager	TAP Specialist	TAP Administrator
920.490.3796	920.490.3916	920.490.3845

#### Upcoming TAP events

- Dec. 8—Healing Through Painting with Kalihwiyostha
- Jan. 2022—Date TBD—Drug Trends Presentation
- Feb. 2022—Date TBD—Story Telling with Brian Doxtator & Corn Husk Doll making with Becky Webster
